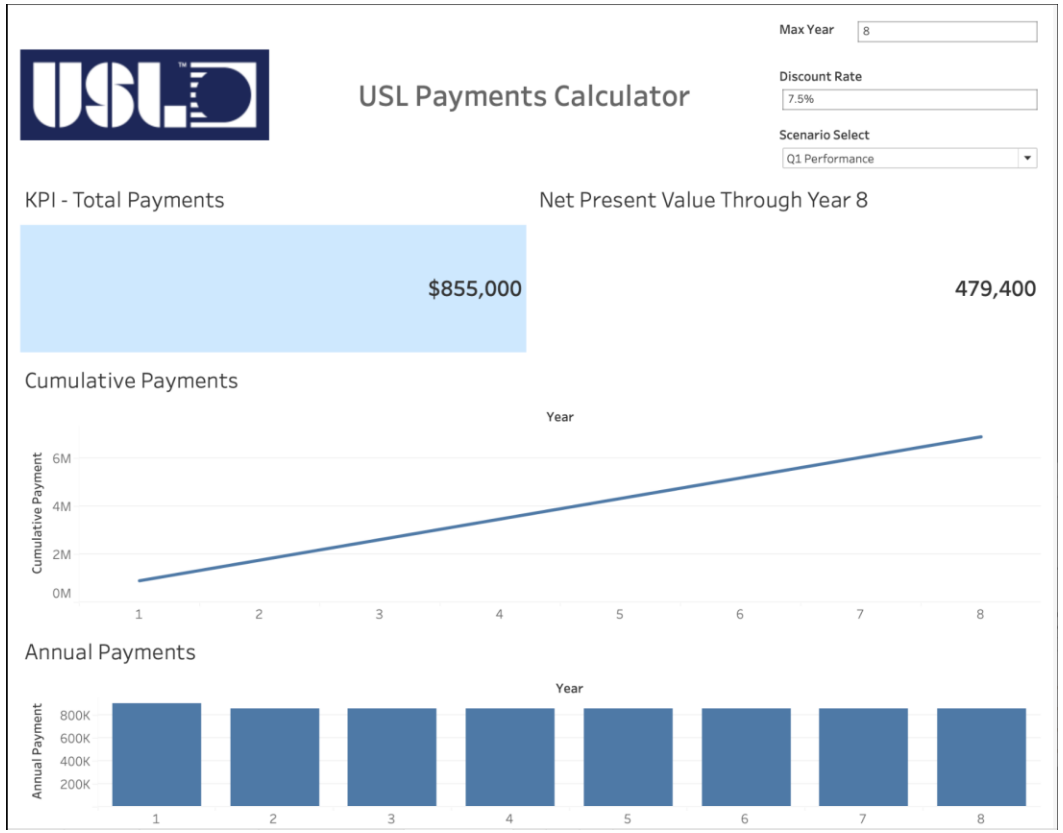
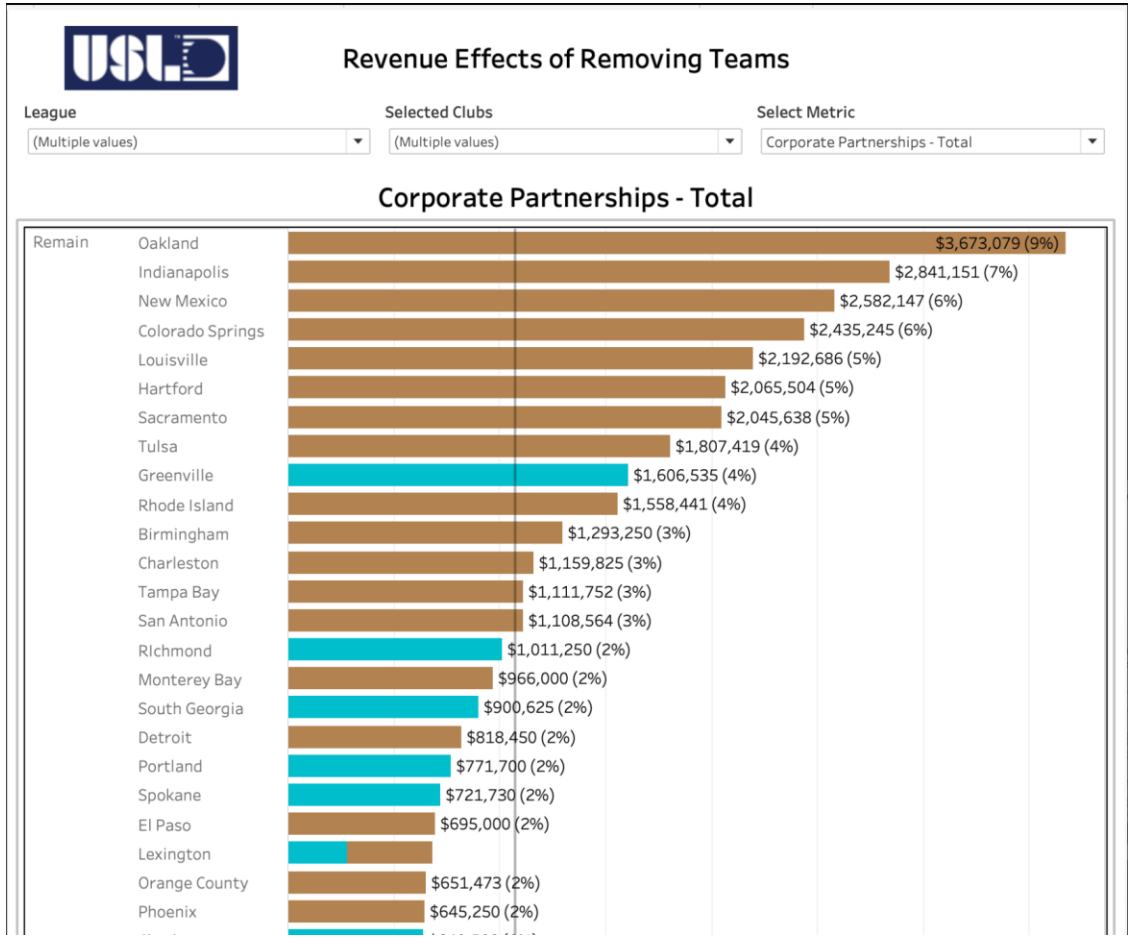
FINANCIAL MODELING: USL PAYMENTS & NPV

- **Problem**
  - **League leadership needed to understand long-term payment structures and true financial value over time**
- **Approach**
  - **Built a dynamic payment and NPV model allowing scenario-based analysis across time horizon and discount rate**
- **Key Insight**
  - **Total payments alone did not reflect true value; NPV revealed meaningful differences across scenarios**
- **Impact**
  - **Enabled clearer, finance-driven conversations around long-term league commitments and planning**



STRATEGIC REVENUE RISK: REMOVING TEAMS

- **Problem**
  - **Executives needed to quantify revenue exposure if specific clubs exited the league**
- **Approach**
  - **Modeled club-level revenue contribution across partnerships, allowing multi-team scenario testing**
- **Key Insight**
  - **Revenue concentration varied significantly by club, creating asymmetric financial risk**
- **Impact**
  - **Informed strategic discussions around league stability, expansion, and risk mitigation**



COMPETITIVE OUTCOMES: PLAYOFF PROJECTIONS

- **Problem**
  - **Clubs and league staff needed clearer insight into playoff probability and competitive positioning**
- **Approach**
  - **Built projections using points per game, remaining fixtures, and maximum point scenarios**
- **Key Insight**
  - **Teams with similar current points had very different upside depending on remaining matches**
- **Impact**
  - **Supported competitive forecasting and data-informed conversations around league parity and format**

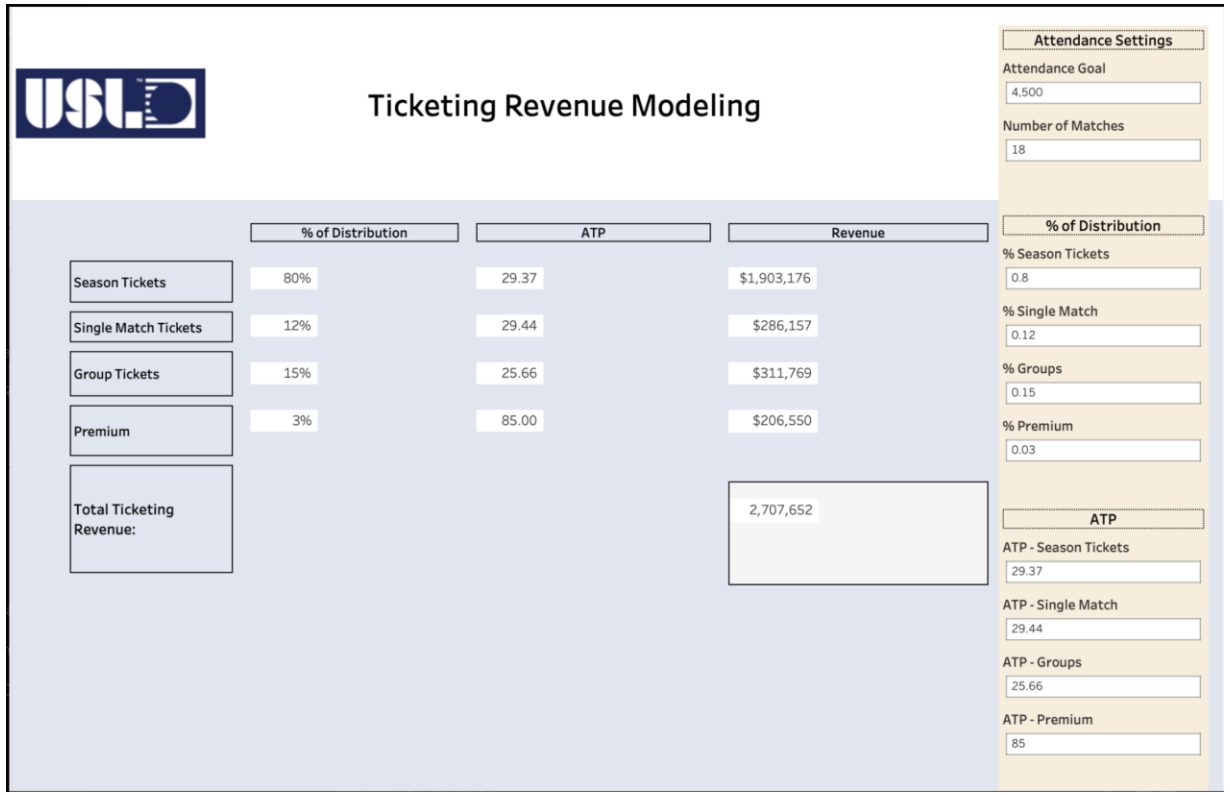
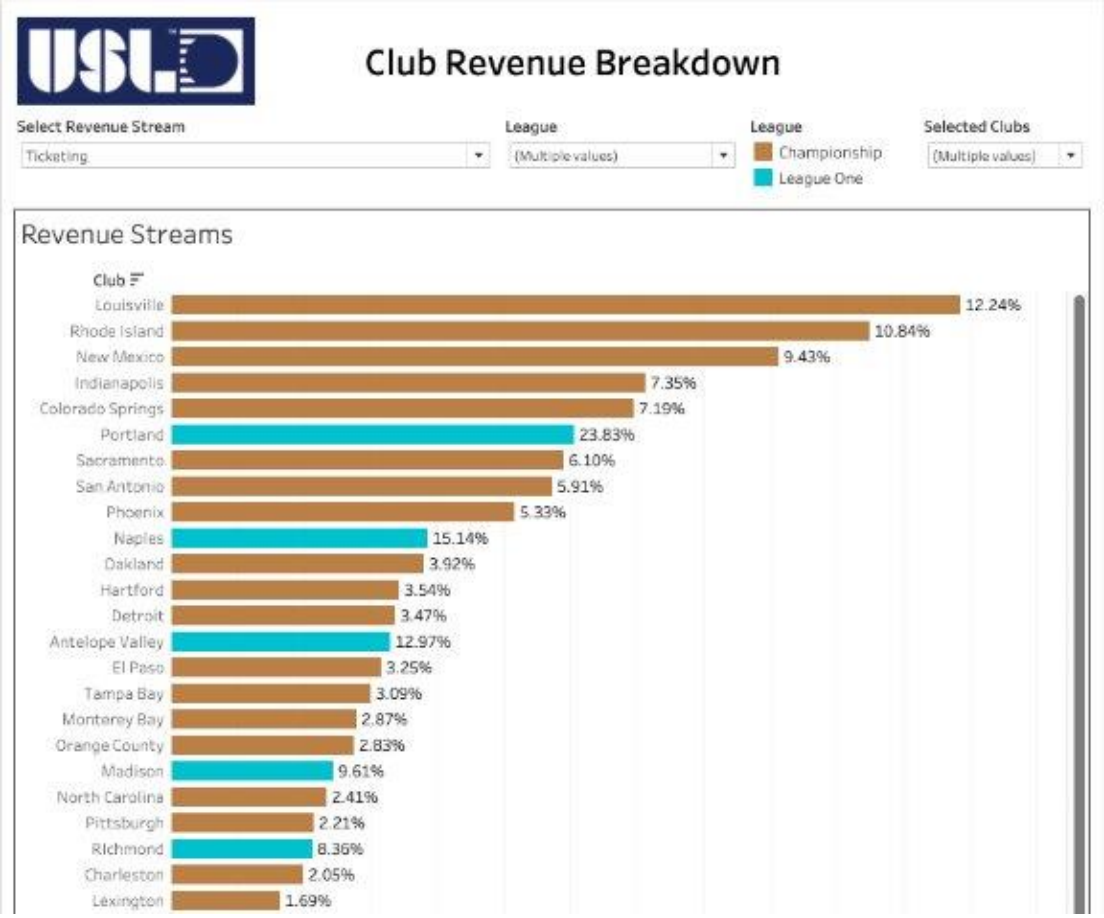
TICKETING & REVENUE OPTIMIZATION

- **Problem**
  - **Clubs needed a way to understand how attendance, pricing, and ticket mix impact total revenue**
- **Approach**
  - **Created a flexible ticketing revenue model driven by attendance goals, ATP, and ticket distribution**
- **Key Insight**
  - **Small shifts in ticket mix and premium pricing had outsized revenue impact**
- **Impact**
  - **Helped frame revenue strategy conversations beyond attendance alone**



CLUB-LEVEL REVENUE COMPARISON


- **Problem**
  - League staff needed a clear view of how revenue streams varied across clubs and leagues
- **Approach**
  - Built interactive dashboards comparing revenue composition by club, league, and stream
- **Key Insight**
  - Revenue profiles varied widely, highlighting different operating models and growth opportunities
- **Impact**
  - Enabled benchmarking and more targeted, club-specific strategic discussions
